Press Release

For Immediate Release

To all of our SAP customers, vendors and SAP employees,

This note represents the sad end as well as the exciting new beginning for two products in the SAP Business One space.

CRG announced last fall that it was exiting the ISV community in the SAP B1 space. This represented the loss of two products, Changer and Migrator. During this period of time, we have heard from numerous customers and partners that our products are much needed and will be missed. So, we began to investigate the possible sale of the two products to another ISV. It is with excitement that CRG announces that both products (Changer and Migrator) will be taken over (sales, support and future development) by Argentis Consulting.

This sale takes effect as of February 9, 2009 and our customers will continue to get support from CRG until that time. This allows all of the existing customers to continue to receive support as well as future releases from Argentis Consulting. In addition, our vendors can continue to sell the solutions which they have confidence in.

Thank you for your support of our products over the past years.

For more information, please review the following press release:

Corporate Renaissance Group Announces the Sale of Changer and Migrator for SAP Business One to Argentis Consulting

February 3, 2009 [OTTAWA, ONTARIO] - Corporate Renaissance Group (CRG) today announced that they have entered into an agreement to sell both Changer and Migrator for SAP Business One to Argentis Consulting. The agreement, which includes both the software and support of existing CRG clients who are presently using either product, is expected to close on February 9, 2009.

The sale of Changer and Migrator to Argentis Consulting comes after CRG decided to exit the SAP Business One market to pursue other business opportunities. The sale allows existing and new customers to use the much

needed functionality and to be supported. Selling Changer and Migrator to Argentis Consulting was a natural fit as they have a strong relationship with SAP and the channel. Argentis Consulting's existing expertise in supporting SAP Business One partners and customers will allow them to market these solutions more effectively.

Corporate Renaissance Group developed Changer and Migrator to help SAP Business One users improve their operational efficiency and effectiveness. Changer enables the modification and consolidation of SAP Business One data. Migrator helps migrate users of QuickBooks to SAP Business One.

"CRG is sad to say goodbye to both Changer and Migrator, they are excellent products that allow users of SAP Business One to get the most out of their operating system. The sale of Changer and Migrator to Argentis Consulting will ensure that these products continue to be available to the SAP Business One market. We also believe that current users will be well served by Argentis Consulting," said Dr. Vijay Jog, President, Corporate Renaissance Group.
