

## Advanced Sales Tax Solution For SAP Business One

Have you ever spent hours and days setting up tax schedules, researching and maintaining sales and use tax rates, or trying to figure out if a tax rate applied to a sales order document is correct? If so, you know just how valuable it is to have sales tax management fully integrated into your SAP Business One system. With tight integration between applications, Avatax integration with Avatax empowers your accounting department with unprecedented sales tax functionality and management control that boosts business productivity while minimizing audit risk.

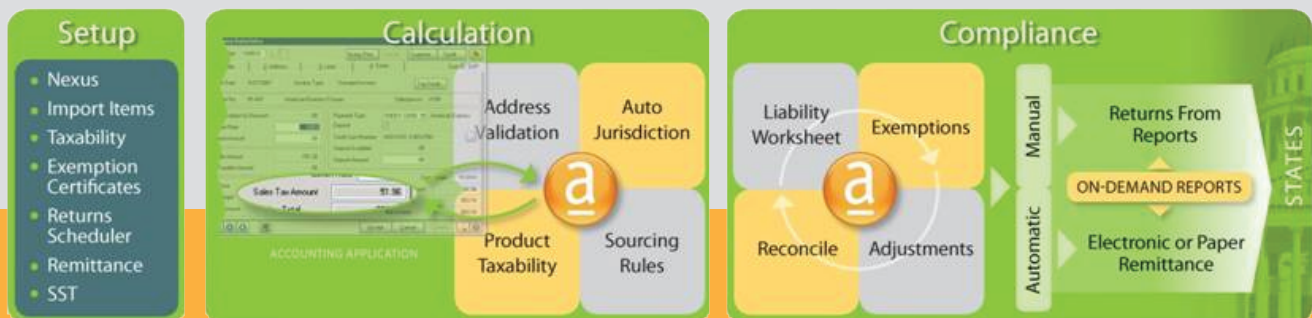

### Benefits

**Avatax** provides your business with a fully integrated and automated Sales Tax Management System, which includes functionality to protect against audits, obsolete data, and changing tax laws.

Dealing with sales tax doesn't have to be time consuming and error prone: Simplify it with Avatax for SAP Business One

Avatax makes tax automation for any business simple, with Avatax : a hosted, Web service based solution that automatically performs address validation, sales tax jurisdiction research, and rate calculation all on the fly within your accounting application, with no change to your existing workflow. Fully detailed reports are always at your fingertips, and returns are automatically pre-populated and generated. It's easy: Avatax takes just minutes to download and install. Set up nexus and taxability, and begin accessing this professionally maintained tax engine over a secure internet connection to apply address, jurisdiction, and rate information to every transaction within the same order-entry or customer setup screen you've always used.
